Visit the Medical Communications for Combat Casualty Care (MC4) Exhibit (booth #100)

at the 8th Annual Force Health Protection Conference 2005
Galt House Hotel & Suites, Louisville, Kentucky
August 7-12, 2005

Visit the MC4 booth from August 9-10 to participate in a demonstration of the MC4 system, including BMIST-J, CHCS II-T and CHCS-NT applications, as well as emerging web-based applications. Be sure to check out MC4's new Panasonic CF-51 Toughbook laptop currently deployed in theater.

MC4 Assistant Product Manager (APM) Major Kevin Watts will be presenting MC4 — *A Gateway to Medical Information for Deployed Forces* on August 12, 10:30-11:30 a.m.

Medical Communications for Combat Casualty Care (MC4) develops, fields and supports a medical information management system for Army tactical medical forces, enabling a comprehensive, life-long electronic medical record for all service members, and enhancing medical situational awareness for operational commanders.

Since its inception in 1999, MC4 has deployed 5,000+ systems to more than 200 units for contingency operations supporting Operation Iraqi Freedom. MC4 has also trained more than 10,000 deployable medical and ancillary professionals, and maintains a 24-7 customer support structure throughout the world. Headquartered at Fort Detrick, Md., MC4 is under the oversight of the Army Program Executive Office Enterprise Information Systems (PEO EIS) at Fort Belvoir, Va. For more information on MC4, visit www.mc4.army.mil.
